OUR MISSION AND VISION

Learning for a Lifetime - Our mission is to emphasize the significance of being a lifelong learner. This mission demonstrates the importance we place on perpetual learning not only for our students, but also for our staff and our community.

It is our vision to have all Beaver Dam students excel in the core academic areas, develop social skills, demonstrate enthusiasm for lifelong learning, be of good character, and be contributing members of society.

BOARD OF EDUCATION

Marge Jorgensen, President

Lisa Panzer, Vice-President

Bev Beal-Loeck, Treasurer

Joanne Tyjeski, Clerk

Kimberly Darst

Daniel Feuling

Jean Hill

Chad Prieve

Gary Spielman

Regular meetings of the Board of Education are held on the third Monday of each month for the months of July through September and November through June, unless otherwise determined by the Board President. The October meeting is held on the fourth Monday to allow for final tax levy and budget preparation.

School Board policies, minutes and goals can be found on the district Website at www.beaverdam.k12.wi.us.

ABOUT THE DATA

Test scores and student data in this annual report were compiled from several sources. Wisconsin school districts are required to provide an annual report that compares local district data to statewide averages. Certain charts with statewide comparisons use 2009-2010 school year data—the most recent available from the state Department of Public Instruction (DPI). The DPI tabulates local information with data from other Wisconsin school districts to determine school, district and state averages.

SUPERINTENDENT'S MESSAGE

Steve Vessey
Superintendent

Welcome! I am Steve Vessey, Superintendent of Beaver Dam Unified School District. I am a proud alumnus of Beaver Dam High School and a life-long resident of Beaver Dam. I began working for the Beaver Dam Unified School District in January of 1996. I have served as a high school teacher and an administrator at the high school, middle school, and elementary levels as well as at the central office. I must confess. I never had career aspirations of becoming a superintendent. I entered education with a strong inner desire to provide for my students a rigorous, meaningful education in a safe environment. Even as my job positions and responsibilities have changed, this desire has not. When I was presented the opportunity to be the Superintendent of Beaver Dam Unified School District, I felt a strong moral calling to the position and a sense of duty to my community. Beaver Dam is not just a place where I work; this is my home. This is where my family and friends live and choose to educate their children. I have one goal, and that is for the Beaver Dam Unified School District to become one of the elite educational institutions in the State of Wisconsin. I have no doubt that together we will accomplish this goal.

Our district is committed to increasing academic achievement, improving our accountability and building relationships within our community. As superintendent, I want the district to be as transparent as possible. Keeping you informed of what we are doing in the district is part of that commitment. I want to encourage all members of our learning community - BDUSD employees, students, parents, and taxpayers - to be involved in our schools. Please attend one of our morning community listening sessions, participate in our monthly radio show, attend a board meeting or school event, send me an email, call me, or stop by my office. I will always find time to talk.

This is the community's school district. These are your schools and your children we are educating, and we want you to be fully informed. Schools and communities do not exist independent of each other. Strong communities build strong schools, and strong schools build strong communities. We have many initiatives and successes to be proud of in our community and our schools. There are many challenges on the horizon as well. I will lead open, honest and forthright discussions about the challenges we face. As a community we will work together to provide a rigorous and relevant education where all students are prepared for educational opportunities beyond high school. I look forward to establishing and cultivating lasting relationships with local businesses, non-profit groups and other educational institutions in and around Beaver Dam. None of us can stand alone and operate independent of the other. Together we will provide educational opportunities for the youth of Beaver Dam that are second to none.

We have one ultimate goal: to prepare all students to be successful in the post-secondary educational environment of their choice. Whether that is attending a two-year technical college, studying law at the University of Southern California or working to graduate from one of our four military academies, our goal is excellence!

ACADEMIC ACHIEVEMENT

Wisconsin Knowledge and Concepts Exam - Most Recent Results

In compliance with the No Child Left Behind Act, all students in grades 3 through 8 and grade 10 must be tested each year to determine that adequate progress is being made in the classroom. In Wisconsin, The Wisconsin Knowledge and Concepts Exam (WKCE) is used to track progress in districts throughout the state. All students in grades 4, 8, and 10 are tested in five content areas, and grades 3, 5, 6, and 7 are tested in two content areas. Student performance on the WKCE is reported in proficiency levels. The four categories of proficiency are minimal, basic, proficient and advanced. The numbers listed below show the percentage of students who achieved either advanced or proficient scores on the WKCE taken in November 2009, as reported by the Department of Public Instruction.

The charts below compare the percentage of students in the surrounding school districts who achieved an advanced or proficient level on the WKCE tests against the test scores from BDUSD and the state. The results, broken down by content area, were taken from the Wisconsin Student Assessment System (WSAS) and are based on students who attended for the full academic year. As required by The No Child Left Behind Act, all students in grades 3 through 8 and grade 10 are tested in reading and math, while students in grades 4, 8, and 10 are also tested in language arts, science and social studies.

Extra-Curricular, Co-Curricular And Community Activities

Each year the Beaver Dam Unified School District offers approximately 55 extra-curricular and co-curricular activities for students in grades 6-12.

During the 2009-2010 school year, students had 11 academic activities, 29 athletic activities and 15 music activities from which to choose.

Participation in athletics was the most popular of the activities. Of the 1,823 students in 6th-12th grades, 1,097 participated in athletics in 2009-10. This is a participation rate of roughly 60%.

Music activities were the next highest in participation with 856 students. This is about a 47% participation rate.

Finally, the academic activities had a participation rate of roughly 36%, or 650 students.

In addition to the extra-curricular and co-curricular school-based offerings, students in grades 9-12 had several opportunities to get involved in their community. In 2009-2010 students had nearly 19 school-sponsored community volunteer activities offered to them. Of the 1,097 students in 9th-12th grades, 322 students (29%) took part.
