

Beaver Dam Lions Club
2008 Friends of Education

The Beaver Dam Lions Club has demonstrated caring, commitment, and compassion for the students of the Beaver Dam Unified School District by providing eye exams and glasses for students in need. For several years, the Beaver Dam Lions Club has quietly assisted students to be successful learners by removing barriers to good vision. They ensure that students in need receive professional eye exams and glasses at absolutely no cost to the student or family. It is a relief to parents when their child is offered an opportunity for better vision through the generosity of the Beaver Dam Lions Club. By limiting the financial barrier for students to obtain the vision health services they require, their education is positively impacted and their quality of life improved.

The Beaver Dam Lions participate in a vast variety of projects important to the community, including providing uniforms for crossing guards and maintaining local parks.
