

Beaver Dam Scholarship Foundation
2015 Friend of Education

It has been said, “To honor the Foundation is to honor the wonderful community of Beaver Dam.” The Beaver Dam community is extremely generous and cares greatly about education. Many citizens worked very hard to make this organization so successful. It would be very difficult to find a more successful organization in the state, and one that is so “grassroots.”

The Foundation has now become an integral part of education in Beaver Dam. This past year the Foundation awarded 26 scholarships totaling \$175,000. Since its inception, the Foundation has awarded 564 scholarships, totaling 3.5 million dollars. The Foundation continues to also support the Partners in Learning mentoring program that assists students who need additional help and support. The Foundation has truly become an “institution” in Beaver Dam that will continue to help students for generations to come.

The Beaver Dam Scholarship Foundation is indeed a Friend of Education.
