

Betty Faas
2006 Friend of Education

As an educator, Betty Faas served students as a music teacher, teacher's aide, and mentor. As a retiree, Faas serves students through volunteer work. "Betty continues to inspire children and adults alike to achieve at a higher level than anyone thought possible," said one of Faas' nominators.

This year marks Faas' 12th year as a volunteer for the Partners are Learning (PaLs) Mentor/Tutor Program in the district. She has been a dedicated volunteer to this program and an advocate for the program through her involvement in the Rotary Club. "Betty is very special to my entire family and me," said the parent of a past student PaL. "Betty was such a great help and influence on my son that he has advanced to the point where he no longer requires tutoring."

Faas is an active member in the Beaver Dam Rotary Club and serves local students through her work with this organization.
