

Verlin Schoenfeld
1998 Friend of Education

Verlin Schoenfeld graduated from Beaver Dam High School in 1938. He continued his family's tradition of farming and remained in the Beaver Dam community. He spent years in positions of leadership in rural affairs and was involved in many parish committees and youth programs. His longest commitment was with the Beaver Dam School Board. After election in 1962 he continued to serve on the board for over thirty years. That means he has attended over 1,000 school board meetings. Schoenfeld held every office and committee chairmanship and served as school board president for four terms. The nominator states, "He has left a legacy to our children and our community - a legacy of caring service."
