Elementary Summer School 2025

The Beaver Dam Unified School District offers a comprehensive Summer School program to students in the Beaver Dam area. Our summer program is available to children regardless of whether they attend public, parochial, or homeschool during the regular school year.

The BDUSD summer program continues to offer a variety of skill building and enrichment courses. Skill building courses are remedial in nature and are designed to support student growth in academics. Our enrichment courses provide students with learning activities that broaden their skills, enrich their interests, and extend their current academic level. Courses that do not have a sufficient number of students enrolled may be cancelled.

Teachers will often recommend that a student enroll in Summer School to further develop the skills and abilities needed to carry on the work to the next grade level. Parents are urged to give serious thought to such recommendations.

Please review the information in this course book and consider enrolling your child(ren) in the Beaver Dam Unified School District's Elementary Summer School Program to take advantage of these worthwhile educational opportunities.

Courses are not guaranteed. If a course reaches capacity, students will be placed on a waiting list and/or in an alternate course.

Courses must be selected based on the grade level your child is in for the 2024-25 school year. Most courses are 45 minutes long. Reading classes are 90 minutes long. Students may take up to 4 summer school classes to equal a full summer school day (8:30 am – 12:35 pm). Students taking a reading class may take up to 3 summer school classes.
