

BEAVER DAM UNIFIED SCHOOL DISTRICT
WALL OF FAME

Breuer Metal Craftsmen, Inc.
2020 Friend of Education

Breuer Metal Craftsmen is a strong advocate for technology education. Over the years, they have provided guidance to students from experts in the field, donated materials for classes and metal-crafting within the classroom. They have opened their doors for field trips and have offered opportunities for students through the Youth Apprenticeship program, some of whom they have hired.

Bernie Breuer and the employees at Breuer Metal Craftsmen have worked collaboratively with the High School and the City of Beaver Dam on the city's bike rack project. Their partnership has been instrumental with the time and materials they have donated. Breuer Metal Craftsmen supports a strong and caring community with their involvement with schools and students.
