

## Wall of Fame Program

The Wall of Fame Program annually recognizes individuals in two categories: Outstanding Alumni and Friends of Education. The recipients of these prestigious awards are honored at the annual Wall of Fame Induction and Banquet.

The Outstanding Alumni Award recognizes one alumnus annually for exceptional accomplishments and to set high standards for our students. The Friends of Education Award recognizes an individual or organization for distinguished service to the Beaver Dam Unified School District and its students.

The first recipient of the Outstanding Alumni award in 1997 was Fred MacMurray, star of stage, screen, and television. Fred MacMurray's widow, June Haver MacMurray, made a financial contribution to establish the program and allow it to continue. Although the Wall of Fame Program recognizes individuals associated with the Beaver Dam Unified School District, the original intent was that the program would be self-sufficient and not funded by the school district.

Please consider making a donation to the Wall of Fame Program that it may continue to recognize exemplary individuals for their accomplishments.
